## **CWC INCREASES GUERNSEY BROADBAND SPEED**

Cable & Wireless Communications' (CWC) Guernsey business has more than doubled the island's top download speed for fixed broadband.

CWC owns the only broadband network on Guernsey and provides internet on a wholesale basis to a number of internet service providers including its own Sure brand.

The new service provides homes and businesses with download speeds of up to 40 megabits per second (mbps), with an upload speed of up to 2 mbps. The previous top download speed available on the island was 16 mbps.

CWC upgraded its network to VDSL technology in order to launch the new service which is currently available to around three quarters of island homes and businesses and is being rolled-out across the island.

Sure is the leading broadband supplier on Guernsey. CWC increased broadband revenue in Guernsey by 6% in the 2011/12 financial year.
